Subject: 2021 Reuse Snapshot Update [Your Review Needed]

Dear Michael Schulman,

In early May, OSRTI sent an email to Regional Branch Chiefs indicating that EPA will be publishing reuse snapshots to the Superfund Redevelopment Program (SRP) website in July 2021. ***You are receiving this email because you are the Project Manager for one or more sites that are in reuse and we are requesting your review of the linked snapshot documents for each site by June 30, 2021*** (see links in the table below).

Please review each snapshot by clicking the document link in the table below. Review for accuracy and provide edits using tracked changes in the document itself. Use comments to respond to questions within the document and provide additional reuse information, if applicable. Also included in each document is a reuse indicator table highlighting specific reuse types on the site. If you make any changes to reuse information, please make sure the changes are consistently reflected in both the text of the snapshot and the reuse indicator table in the document. Following your review, Skeo will address your tracked changes and follow up with you for additional input if needed.

After you review a snapshot document, please fill out and submit the corresponding review form (see links table below). The review form will ask to you indicate whether you made edits to the snapshot text and reuse indicator table within the document.

Important notes:

- Snapshots are drafted to focus on site reuse and continued use, not to provide a remedial overview or comprehensive site history. If readers want to know more about the site's status, the SEMS profile page is linked below each reuse snapshot on the SRP website.
- You do not need to do research for the site. Please just review/confirm information in the linked snapshot document and provide additional suggestions, if appropriate.

- Some snapshot documents may include clarifying questions. Please try to address any questions that are noted in the snapshot document during your review by leaving a note directly in the document using tracked changes or a comment.

Site Name	Reuse Snapshot Document Link
ADVANCED MICRO DEVICES, INC.	https://skeo.sharepoint.com/:w:/s/SuperfundRedevelopmentInitiative/EaUtlkummtJDjyEbpi4JWAQBOJqN-qTF
INTERSIL INC./SIEMENS COMPONENTS	https://skeo.sharepoint.com/:w:/s/SuperfundRedevelopmentInitiative/Ec4m2kwRWHIHVqcrUTkuhMBcAgDM
SAN FERNANDO VALLEY (AREA 4)	https://skeo.sharepoint.com/:w:/s/SuperfundRedevelopmentInitiative/Eaq-l_pOsjZDvYfIKU-Gf-YBq1cV54iaveK
SIGNETICS, INC.	https://skeo.sharepoint.com/:w:/s/SuperfundRedevelopmentInitiative/EV2dApqDgdJBnv5kjPAvvfUBT_f1GHvV
TRW MICROWAVE, INC (BUILDING 825)	https://skeo.sharepoint.com/:w:/s/SuperfundRedevelopmentInitiative/ESXUpjwW5PtFiYm9LZG3npwBxQpBF0

We would appreciate if you would return all comments and review by June 30, 2021.

Lastly, if you have a Superfund site in reuse that we have not captured, we would love to hear about it! Please let us know the name of the site and we can work with you to develop new snapshot text and accompanying reuse indicator table.

If you have any questions, please feel free to contact Skeo at Snapshot2021@skeo.com. Thank you for your assistance with this effort!
